Software Developer

SUMMARY OF QUALIFICATION

Full Stack Developer with 3 years' experience in web and mobile applications using React.js, Node.js, Flutter, and Spring Boot. Fast learner with strong adaptability and passion for continuous skill growth. Proven ability to deliver scalable, high-quality solutions in agile environments.

EDUCATION

B.SC. IN INFORMATION TECHNOLOGY – MAE FAH LUANG UNIVERSITY, 2021 (GPA: 2.81)

- Coursework included software development, database systems, and web/mobile programming.
- Senior project focused on full-stack development (see Real Estate Web Application above).

SKILLS

Coding Languages

Java | Dart | JavaScript | HTML/CSS | VB.net | SQL

Database tools

PostgreSQL | SQL Server | MongoBD

Cloud Platform

Firebase

Frameworks/Third party/library

React.js (Redux) | Flutter (Get X) | Bootstrap | Devexpress | Primeface | Material ui | Spring Boot | Express

Other

Docker | Jenkins | Git | TFS | Postman | Argocd

BOOTCAMP

KBTG Kampus ClassNest – Java Software Engineering Bootcamp (2nd Edition) – KASIKORN Business-Technology Group, 2022

Completed an intensive bootcamp in Java software engineering, gaining hands-on experience with Git, Spring Boot APIs, database integration, and Java fundamentals.

EXPERIENCE

FULL STACK DEVELOPER – BANK FOR AGRICULTURE AND AGRICULTURAL COOPERATIVES (AUG 2022 – PRESENT)

- Develop and maintain a back-office loans management system used across bank branches (Tech: React.js, Node.js, Spring Boot, SQL Server, PostgreSQL, Jenkins, Docker).
- Create test cases and support System Integration Testing (SIT) and User Acceptance Testing (UAT).
- Perform regular system monitoring, maintenance, and optimization.
- Provide technical support and promptly resolve user-reported issues.

FULL STACK DEVELOPER – PUUMSOFT CO., LTD. (JAN 2022 – JUL 2022)

- Contributed to the development of HRM/HRD "Coach" – a corporate HR management system (Tech: VB.NET, SQL Server, Flutter for mobile).
- Developed core application features using VB.NET (for business logic/UI) and optimized database operations in SQL Server.
- Created and refined stored procedures, improving system performance and functionality.
- Built custom RDLC reports to facilitate HR analytics and reporting.
- Assisted in developing the Coach mobile application using Flutter for on-the-go HR management.

.NET DEVELOPER (INTERN) – RISE CONSULTING CO., LTD. (MAY 2021 – SEP 2021)

- Developed and maintained the system used in bank branch platforms.
- Created test cases and support sit,uat.
- Performed regular system checks and maintenance.
- Provided technical support and resolved user issues.

CASE STUDY

ase study in university

MINI PROJECT WEB APPLICATION

Built a Hotel Management website using Spring Boot and MySQL for a Web Programming course.
GitHub: https://qrgo.page.link/TvkuH

MINI PROJECT MOBLIE APPLICATION

1.Thai-English Dictionary Application developed using Flutter.
Github:https://qrgo.page.link/rwTwB

2.Real Estate Application developed using Flutter
Github:https://qrgo.page.link/QjgaC

SENIOR PROJECT

Developed a real estate website using React.js and Node.js as my senior project.
GitHub: https://qrgo.page.link/85Lpw
